Web Developer whose prior job experience developed a proven foundation for problem-solving through learning, adapting, and applying. I am also a visual artist with an eye for design and bring all of these strengths into how I approach software engineering. The teams I've worked with lean on my effective communication and quick problem-solving.

SKILLS

Ruby, Rails, Vue.js, JavaScript, HTML, CSS, PostgreSQL, Git, GitHub, APIs, Pair-Programming, Testing, Object-Oriented Programming, Bootstrap

EDUCATION

Actualize, Chicago, IL — *Certificate in Full Stack Web Development*

August, 2021 - December, 2021

- Dad's Fantasy (Football) App: personally built a web app that presents the user with a dashboard covering news relevant to fantasy sports. The app is powered by a filtered Twitter feed, using the Twitter API 2.0, allowing the user to be updated on fantasy news in real-time directly from the source's Twitter account. The app also provides leading news articles through a News API and Rotoworld's RSS feed. The database is PostgreSQL with frameworks Ruby on Rails, Vue.js, and Bootstrap.
- Bootcamp: Learned fundamentals and best practices in full-stack web development in areas of project architecture, backend, frontend, and how to effectively self-teach new technologies
 - Generated technical requirements and determined the most effective solutions, created wireframes, designed schema, and researched outside resources
 - Built and tested the backend, incorporating external APIs
 - Created pages and RESTful routes, made web requests to retrieve data, formatted and styled results, incorporated libraries and themes
